

**MISSION STATEMENT:**

Diopsys, Inc. is a medical instrumentation company dedicated to advances in preventive health care for children. The company specializes in the development and marketing of easy-to-use, non-invasive, child-friendly diagnostic testing equipment utilizing Evoked Potential technology. Diopsys, Inc. understands the needs of the patient, the parent and the medical community, and the important role of early medical intervention for correctable pediatric problems, which can lead to the improved quality of life.
