

**200,000 Children Are Born Each Year With Vision Problems**

**MANY OF THESE  
VISION PROBLEMS  
GO UNDETECTED...  
UNTIL NOW.**

**PEDIATRIC VISION  
TESTING SYSTEM**

- **Child-Friendly**
- **Accurate**
- **Immediate Results**
- **Tests Children 6 Months and Older**

**Ask Your Pediatrician About This Important Test**

- Vision problems affect one in 20 preschoolers and one in four school-age children\*
- More than one in 50 children have amblyopia, which can lead to blindness in one eye\*
- Early detection means better treatment
